Short Tutorial - How Can I Search More Efficiently For Something On Pinterest?

Question: I like to use Pinterest to look for home decorating and craft ideas, but sometimes it takes a long time to find what I want. How can I search more efficiently for something on Pinterest?

Answer: To find things more easily on Pinterest, you can use the site's Guided Search feature. It's a great way to sift through Pinterest's 750 million boards and 30 billion pins to find just the right ideas.

Pinterest's Guided Search works like this:

- Type your search term into Pinterest's search bar and you'll see "Guides" pop up, which help find keywords to add to your search. Guides are scrollable - just click on the arrow at the far right of your display to see additional options.
When you click a Guide, you'll automatically add it to your original search query. Then a fresh set of Guides will appear under the search bar, and you can continue selecting more keywords to narrow your focus.
Guided Search is especially valuable as a visual search engine for inspiration.
